PROJECTS

Deposit Pricing Analytics | Snowflake, dbt, Python, SQL, Streamlit, Firecrawl, API

- Built end-to-end data pipeline ingesting Fed rate and bank deposit rates into Snowflake, transformed with dbt into a star schema to create an analytical source of truth for deposit pricing
- Engineered pass-through rate metric in SQL to quantify how much of each Fed rate hike banks passed to depositors, enabling data-driven deposit placement decisions
- Deployed live Streamlit dashboard with APY rankings, earnings projections, and bank recommendations giving clients a direct view into where their money grows the most

EXPERIENCE

Wyndo Platform– Los Angeles, CA

Website Analytics & Development

November 2025 – Present

- Analyzed website traffic and user behavior using Google Analytics to measure engagement and performance
- Tracked key metrics such as user acquisition, session duration, conversion rates, and traffic sources
- Evaluated the effectiveness of digital ads and marketing campaigns through campaign and referral data
- Used analytics insights to recommend improvements in user experience and marketing strategy
- Gained hands-on experience in web analytics, performance measurement, and data-driven decision making

H15DEN – Los Angeles, CA

Business Development Intern

November 2025 – December 2025

- Conducted market research on independent restaurants and beverage businesses to identify industry trends, customer pain points, and partnership opportunities
- Generated leads using CRM and outreach tools, contributing to pipeline growth and client acquisition efforts
- Analyzed customer data to provide actionable insights supporting business development strategy and product positioning

Mayor’s Office of Los Angeles – Los Angeles, CA

Community Engagement Intern

September 2025 – December 2025

- Handled documentation and paperwork related to city programs including housing, immigration, and small business support
- Assisted with research, event coordination, and preparation of reports and outreach materials
